Sirs:

I am supporting the petition for captioned telephone service being mandated by The FCC. It is docket # 03-123. My husband and a close friend need this improvement over the present system. Communication for ordering goods and services is very difficult and personnel phone calls coming in are often misunderstood. The captioned TV has been a wonderful thing so we know the possibilities of the captioned telephone. I would appreciate your being attentive to the necessity of passage of this bill.

Thank you.

Sincerely,

*Carol Christensen*
